# GET CONNECTED

ECS Electronics has over 30 years of experience and is European largest supplier of vehicle specific towbar connection systems. Over the last decades we have collaborated closely with our customer base and as a result we have expanded our product portfolio with unique and innovative connection systems solutions for the automotive industry.

Our customers can count on mature engineering capabilities and state-of-the-art manufacturing locations to develop and produce total solutions or provide them with one or more components for specific projects.

Our professionals employ their high level of expertise and specialist experience to offer connection systems consisting of the following components: wiring harnesses, electronics hardware and software, CAN-Bus technology, spare parts and automotive accessories.

## OUR STRENGTHS

-  *In-house Research & Development and Electronics teams*
-  *Perfect balance product quality vs manufacturing costs*
-  *Speed and punctuality*
-  *Dedicated (after-)sales and support professionals*

PDC - trunk opener - temperature - air

By maintaining a flexible automotive manufacturing base and our own R&D and Electronics teams, we are able to deliver customised solutions based on your specific needs and ideas.

*We would be delighted to work with you*

**CUSTOMISED  
SOLUTIONS**

ECS Electronics is an established international company specialised in development, manufacturing, validation and marketing of premium quality electronic connection systems for the automotive industry.

Our product portfolio includes solutions for automotive accessories, vehicle telematics and test & diagnostic equipment. In addition, by maintaining a flexible automotive manufacturing base and our own in-house Research & Development and Electronics departments we are able to deliver customised solutions.

From our production plants in The Netherlands, Vietnam and Poland we provide cutting-edge products to more than 20 of the biggest automotive original equipment and aftermarket brands around the world.
