

# CERTIFIED DATA SUPPLIER

June 2020

We are proud to announce that TecAlliance has appointed us as Certified Data Supplier. Data suppliers who meet the relevant requirements to a particularly high degree are distinguished with this quality mark.

Founded in 1994 by companies of the automotive aftermarket industry and the German Association for Spare parts (GVA), TecAlliance has established itself as the leading supplier of electronic spare parts information on the European market, by setting rigid standards for data and process in the digital automotive aftermarket.

Our TecDoc data is enhanced with:

- Product images
- EAN codes
- Article criteria improvements
- Vehicle linkages expansion
- Replacement info
- Extension kits linkage
- Installation manuals URL
- All other criteria verified

TecAlliance provides all data suppliers with an evaluation of the data through several KPI's. We have been working hard on improving our data and are glad to see that this effort is reflected in an average KPI score of 99,8%, where the average supplier score is 88,8%. We strive to continue improving our services while remaining at your disposal.
