

PRODUCT NEWS: LIGHTMATE II & LIGHTMATE III

ECS Electronics offers automotive test & diagnostic equipment for measurements and diagnostic purposes. Both of our LightMates are meant for checking the installation and failure diagnostics of towbar wiring kits. Our LightMate II as well as III can simulate LED and trailer light failures. Moreover it is possible to test earth connections and even trailer and caravan lighting can be tested. Explore the differences between the LightMate II and III and find out which testing tool is best for you.

In case you have any questions, please contact us. We will be happy to help you.

FEATURES	LIGHTMATE II	LIGHTMATE III
Solid case for maximum protection	✓	✓
LED simulation	✓	✓
Simulation of trailer light failures	✓	✓
Real lamp load	✓	✓
Earth connection test	✓	✓
Trailer and caravan test	✓	✓
Resettable fuse	✓	
Simulation of trailer with one rear fog light	✓	✓
Simulation of trailer with two rear fog lights		✓
Simulation of trailer with one reverse light	✓	✓
Simulation of trailer with two reverse lights		✓
Self test function	✓	
Real lamps visible	✓	
Simulation of older trailers and caravans	✓	
Possibility to check voltage +15 / +30	✓	
Built-in automatic short circuit protection		✓
Built-in automatic rechargeable battery		✓
Remote display pad		✓
Dimensions	60 x 51 x 18,5 cm	51 x 45 x 16,5 cm
Weight	9,5 kg	6,5 kg
